

How to buy ENJ on Tidend

Enjin Coin(ENJ) will be initially trading on [HitBTC](#), [Tidend](#), [Coss](#), [EtherDelta](#), [Cryptopia](#) and [Livecoin](#). More exchanges will be announced further down the line.

In this guide, we will be showing you how to buy Enjin Coin(ENJ) on Tidend, for other exchanges, please read the guides for those exchanges.

Values shown in this guide are not representative of the value of ENJ, and are for demonstration purposes only.

Trading Pairs

You will be able to trade Enjin Coin(ENJ) with Bitcoin(BTC) or Ethereum(ETH) on Tidend:

- [ENJ/ETH](#)
- [ENJ/BTC](#)

1. Getting an ERC20 compatible ETH wallet

You will need an ERC20 compatible ETH wallet to store your ENJ tokens. The compatible wallets we recommend are: Coinomi (Android), MyEtherWallet (Web), MetaMask (PC), Mist (PC), Parity (PC) and imToken (iOS & Android). If you are using any other wallet, make sure to check that they support all ERC20 token or that you have access to the private key (for exporting to a compatible wallet).

Here is our guide on how to create your wallet on MyEtherWallet:

https://enjincoin.io/create_mew_wallet.pdf

2. Acquiring Ethereum (ETH) or Bitcoin (BTC)

You can purchase ETH with fiat currencies such as USD, Renminbi, etc., on any of the well-known cryptocurrency exchanges, such as:

- <https://www.coinbase.com/>
- <https://www.kraken.com/>
- <https://poloniex.com/>
- <https://cex.io/>

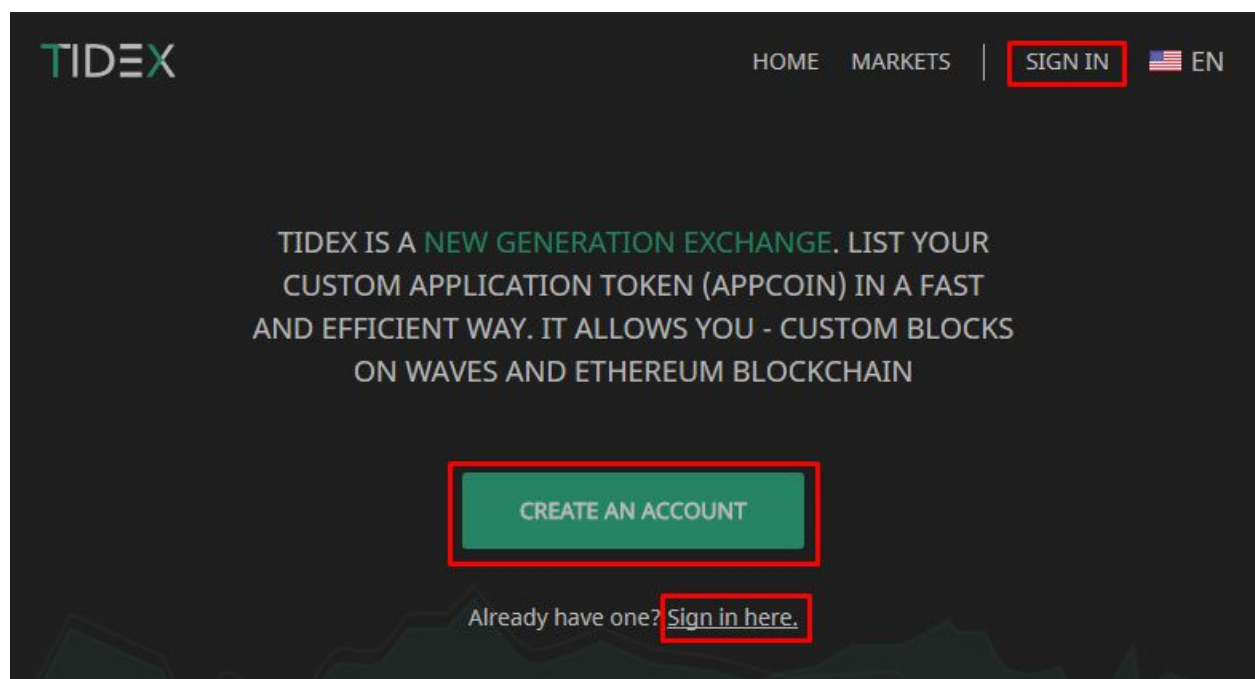

You may need to provide proof of ID and proof of address before buying.

Once you have brought ETH, you can send these to your ETH wallet or straight to your Tidex exchange wallet once you have registered.

Purchasing Bitcoin is similar but you will need a Bitcoin wallet instead of an Ethereum wallet.

3. Register or login to your Tidex account

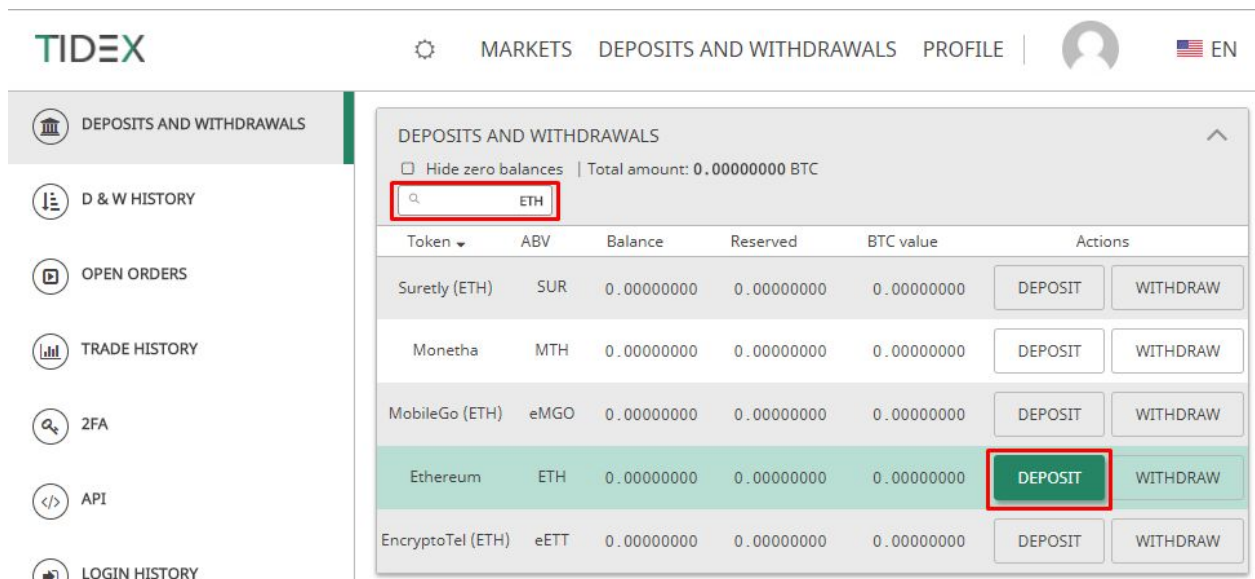

Go to <https://tidex.com/> and register for a Tidex account by clicking on the “CREATE AN ACCOUNT” button or login to an existing account by clicking the “Sign in” link. When registering for an account, you will be sent an email to verify your account and a one-time authentication code upon login.

4. Deposit Ethereum or Bitcoin into your account

When logged into your account, go to the “DEPOSITS AND WITHDRAWALS” page at the top and search for “ETH” or “BTC” and click on the “DEPOSIT” button to get your Tidex exchange wallet address.

If you are depositing ENJ tokens DO NOT send the tokens to the ETH deposit wallet. You need to find the ENJ deposit wallet address.

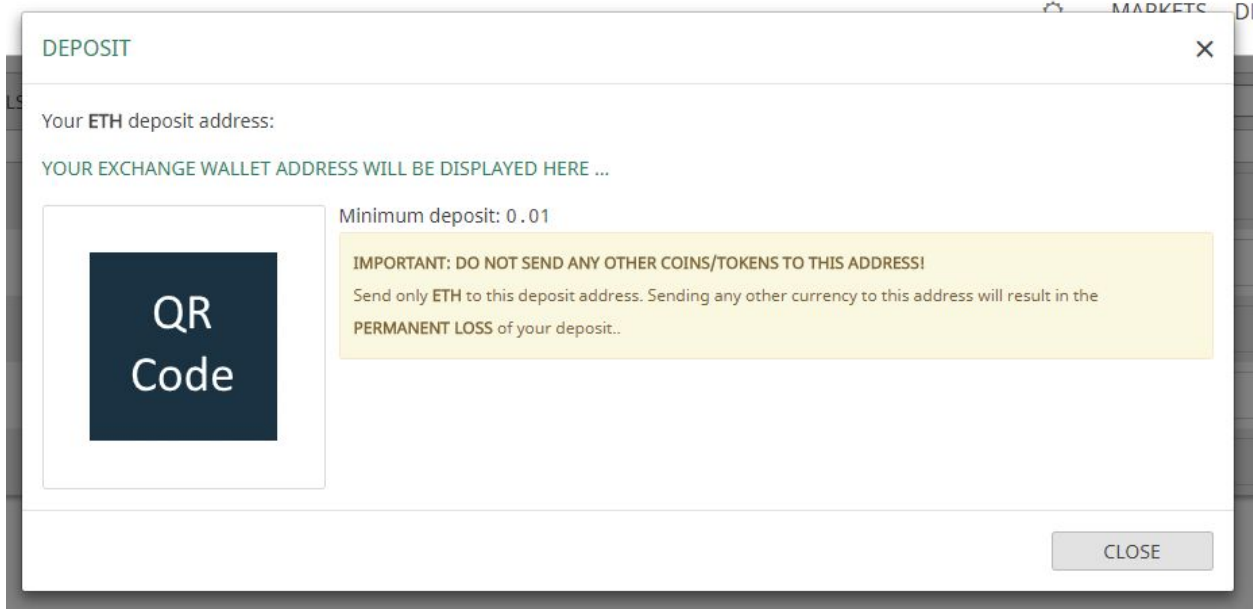

The screenshot shows the Tidex interface. At the top, there is a navigation bar with the Tidex logo, a gear icon, and links for "MARKETS", "DEPOSITS AND WITHDRAWALS", and "PROFILE". A user profile icon and a language selector set to "EN" are also visible.

The left sidebar contains several menu items: "DEPOSITS AND WITHDRAWALS" (selected), "D & W HISTORY", "OPEN ORDERS", "TRADE HISTORY", "2FA", "API", and "LOGIN HISTORY".

The main content area is titled "DEPOSITS AND WITHDRAWALS" and includes a search bar with "ETH" entered. Below the search bar is a table with the following columns: "Token", "ABV", "Balance", "Reserved", "BTC value", and "Actions". The table lists several tokens, with the "Ethereum" row highlighted in green and its "DEPOSIT" button also highlighted with a red box.

Token	ABV	Balance	Reserved	BTC value	Actions
Surety (ETH)	SUR	0.00000000	0.00000000	0.00000000	DEPOSIT WITHDRAW
Monetha	MTH	0.00000000	0.00000000	0.00000000	DEPOSIT WITHDRAW
MobileGo (ETH)	eMGO	0.00000000	0.00000000	0.00000000	DEPOSIT WITHDRAW
Ethereum	ETH	0.00000000	0.00000000	0.00000000	DEPOSIT WITHDRAW
EncryptoTel (ETH)	eETT	0.00000000	0.00000000	0.00000000	DEPOSIT WITHDRAW

You will need to transfer a chosen amount of ETH to the wallet address provided to you. Once the transfer/transaction is successful, the amount should be credited to your “Available” balance (you may need to refresh).

Depositing Bitcoin is similar but you will need to send to your BTC deposit address instead.

5. Buying ENJ with ETH or BTC

Go to [ENJ/ETH](#) or [ENJ/BTC](#), depending on if you deposited ETH or BTC. Go to the “BUY ENJ FOR ETH” section and you can enter values into “PRICE”, “AMOUNT” and “TOTAL” fields and it will automatically calculate an estimate total price or amount for you.

If experienced you may also want to check other current order prices before placing your order.

BUY TOKEN 3.1253347 ETH | Deposit

	PRICE	0.00039000	ETH
	AMOUNT	2625.00000	ENJ
	TOTAL	1.02375262	ETH

Ordering confirmation FEE (0.1%)

Once you have confirmed the amount and price you will pay, click on “BUY ENJ” at the bottom to initiate your transaction. When successful, you will be given a confirmation. You can check your new balance on your “DEPOSITS AND WITHDRAWALS” page, <https://tidex.com/account/deposits>, click “Hide zero balances” to quickly see your balances.

Congratulations, you are now a proud owner of the ENJ token!
